

Introduction to c++

* 1970 → structured programming.

* 1980 → Object oriented programming.
 → C++
 → Small talk.
 → Simula

* C++ was developed by Bjarne Stroustrup at Bell Lab's USA.
 in 1980s.

C++ has 3 separate programming concept:-

- 1) Procedural language, represented by C.
- 2) Object Oriented Programming. (OOPs concept).
- 3) Generic Programming. (Template)
